Wellness Activity: Share your strategies related to the three following questions:

• What strategy do you use to manage your work/life balance?
• How do you manage your time and energy throughout the day?
• What helps you thrive in life in the workplace?

In-Person Attendees
• Use the large sticky pads around the room.
• Place one suggestion on single sticky note.

Virtual
• Use the following QR code or link to share your strategies:
  • Go.osu.edu/wellness-activity-sohw

Vision: To be the healthiest university and community on the globe

Mission: We exist to facilitate the highest levels of wellness for faculty, staff and students across the university and community

See wellness.osu.edu for our current strategic plan

**Our New 5-year strategic plan is currently in process**
What is Known From Recent National Studies

• Burnout in the post-pandemic workforce is between 40 and 60% in most studies
• Burnout is strongly associated with depression and clinical anxiety and strongly related to turnover
• Mattering to an organization matters and is associated with less burnout, depression and anxiety
• If people perceive their workplace culture as supportive of their well-being, they have better mental and physical health outcomes
### Work Stress Impacts Personal Lives Significantly

<table>

Mental Health & Well-being Risk

Anxiety Risk: Score of >= 3 on following questions:  Over the last two weeks, how often have you felt nervous, anxious, or on edge?  Over the last two weeks, how often have you felt unable to stop or control worrying?

Depression Risk: Score of >= 3 on following questions:  In the past two weeks, how often have you had little interest or pleasure in doing things?  In the past two weeks, have you felt down, depressed or hopeless?

Smoking Risk: Current tobacco user

Daily Alcohol: On days I drink, I usually have this many drinks.  Weekly Alcohol: Sum of the number of drinks per week
Overall, based on your definition of burnout, how would you rate your level of burnout?

Symptoms of burnout can include, anxiety, headaches, lack of sleep, fatigue, and an increasingly cynical outlook on life and work.

Resources for Staff and Managers

• **Guide for Investing in Your Health and Well-Being**
  - Provides tips for staff advocating for flexibility in order to better engage with wellness programming. The intent is to equip staff for conversations with their manager about incorporating wellness into their workday. Also provides sample activities for physical, mental, and career/intellectual wellness, and a list of campus wellness resources in one place.

• **Wellness Toolkit for Managers**
  - Geared toward managers and leaders. Links to articles demonstrating the value of supporting employee wellness, suggests ways to support employees on their wellness journey, and provides ideas for incorporating wellness into a team environment. The guide specifically references supporting employee mental health.

*Toolkits created in collaboration by USAC, OCWO/Buckeye Wellness, OHR Talent Management, OSU Health Plan, YP4H, and Wellness Coaching*
Faculty Toolkit
Strategies to Support Well-Being in Students

Key Strategies to Create and Nurture a Culture of Wellness

- Leadership “leads by example”
- Top-level leaders, faculty and managers model and support healthy behaviors, relationships, interactions.
- Faculty, students, staff, clinicians personnel that leadership cares about their wellness and that they matter.
- Clear messages communicate the priority of well-being. Wellness is built into the strategic plan of the organization with specific measurable goals and the measurement of outcomes.
- Opportunities for feedback include collaboration and transparency.
- Regularly and informally recognize outstanding contributions to wellness by individuals and groups.
- Create expectations for all to integrate self-care into their daily practices.

- Comprehensive well-designed programs support individual wellness efforts
- Programs and benefits intentionally methods and sustain support for improved well-being.
- Policies and practices allow time and resources that support wellness and self-care.
- Programs cultivate inclusivity and a sense of belonging.
- The mission, vision, values and strategic plan of the organization/system supports a wellness culture.
- Language related to wellness and well-being is positive, encouraging and inclusive.
- A holistic approach to wellness and self-care is valued and celebrated.
- Healthy choices are the default choices within the organization/system.
- Connection and partnership are prioritized and celebrated.
- Relationship-building occurs through respect, authenticity and a sense of safety and trust.
- Collaboration and team-building are encouraged.
- Digital platforms encourage engagement, in-person and online environments maximize interaction.
Health & Wellness Briefs
Tactics for a better you!

Based on Evidence, What Do We Know?

People who have the following behaviors have 66% less diabetes, 45% less heart disease; 45% less back pain, 93% less depression, and 74% less stress:

- **Physical activity** - 30 minutes 5 days per week (Reduce the time of meetings down from 60 to 50 minutes so you will have more time for short recovery breaks; *A decrease of meetings by 40% leads to an increase in productivity of 70%!*)
- **Healthy eating** - 5 fruits and vegetables per day
- **No smoking**
- **Alcohol in moderation** – no more than 1 drink per day for women and men if you drink alcohol

Getting 7 hours of sleep and regularly engaging in stress reduction will result in even greater reductions in chronic disease.
The Next 30 to 66 Days

• Which healthy lifestyle behavior will you commit to improving in the next 30 to 66 days?
• Inch by inch, it’s a cinch; yard by yard, it’s hard!
Student Health and Well-being at Ohio State

Dr. Melissa Shivers
Senior Vice President for Student Life
Ohio State Student Well-Being

**Mental Health**
- 34% of students report they have been diagnosed with anxiety
- 27% of students report they have been diagnosed with depression
- 49% of students report ever receiving mental health treatment

**Loneliness**
- 24% of students report they have difficulty creating and maintaining social relationships
- 53% of students score positive for loneliness

**Alcohol and Other Drug Use**
- 80% of students report using alcohol in their lifetime
- 45% of students report using cannabis in their lifetime
- 12% of students report misusing a prescription stimulant in their lifetime

Data sources: National College Health Assessment, 2022; College Prescription Drug Study, 2022; Student Life Survey, 2023
Ohio State Student Well-Being

**Physical Health**

- 40,863 students have swiped into a university rec facility
- 80% of students rate their physical health as good to excellent

**Wellness**

- 88% of students rate their ability to thrive as good to excellent
- 12,201 students have attended a presentation or coaching appointment at the Student Wellness Center

Questions: yp4h@osu.edu
2024 Buckeye Wellness Innovator of the Year Award Recipients
2024 Manager and Supervisor Award Recipients
Emily supports staffs’ personal wellness goals and is accommodating. "Emily often offers to change locations for our one-on-one meetings to get us both out of our offices and moving. She has encouraged me to take time off, when and as needed. Emily was the one who encouraged me to take intermittent FMLA leave when it became appropriate to help promote my health and wellness."

• Emily goes above and beyond to help find a solution that benefits all involved. "I have never had a supervisor prioritize my individual wellness this often and to this level, and she does this for all of the folks she supervises."

• "When Emily runs larger group meetings, she ensures that we have time for wellness and checks in with all of us about work stressors and how she can assist us."
Sandra VanVranken
Director, Laboratory Compliance
The Ohio State University Medical Center

- "Sandra is consistently supportive of and listens to staff needs, whether that is flexibility in their schedule, help with workload, or desire to expand their work to include other items that may not be directly related to job role but increases overall job satisfaction and employee happiness."

- "Sandra has been very supportive of my desire to further incorporate staff health and wellness into the labs by encouraging me to become a BWI, and take part in the new Clinical Staff Well-being Committee."

- "Sandra helps to promote health and wellness throughout the labs via communications with lab leadership and arranging events/presentations."
"Todd cares about the people that are under him, and how we feel, both mentally and physically. He wants us to be happy and healthy while we work. Todd makes sure we know he's there for us and wants us to have a good balance between work and life."

"Todd is also really flexible with our work schedules. He understands that work can be stressful, so he lets us manage our time in a way that works best for us."

"Todd also makes sure we have what we need to stay healthy at work. Whether it's buying exercise equipment or joining a gym, he always reminds us to make the best of the Lifestyle Spending Account (LSA) and sends reminders before the deadline! which has helped me utilize the LSA funding before the deadline."

"Todd is a great leader who cares about our well-being. His kindness, flexibility, and support inspire us to be happier and healthier both at work and in our personal lives. He is the definition of a Wellness Champion."
Kim Young
Chief Administrative Officer
The Ohio State University

"Kim ensures all members of the John Glenn College of Public Affairs can learn and work in a supportive and comfortable environment. She ensures health and wellbeing are at the forefront of all decisions."

"Some examples of programs and activities she has been a leader in creating and implementing for an entire college: wellness walks, lunchtime reading club, Bring a Child to Work Day, John Glenn-themed University Steps Challenge, REACH training, Naloxone training, hot chocolate/coffee bar, snack bags for exam week, chair massages, OSU 4-miler, 9/11 memorial run with ROTC, Halloween costume potluck, Thanksgiving potluck, indoor bicycle parking, among others."

"Kim Young is a strong and dedicated leader in the John Glenn Board of Wellness Committee. She bridges the gap between mental and physical health by planning, promoting, and participating in monthly wellness walks.

"Additionally, she has been a fierce advocate for the Glenn college to host REACH (suicide prevention) trainings for 5+ years in a row. She has been a leader in keeping track of employees who have received their training and congratulating those who do."

"Overall, she goes above and beyond to ensure I feel valued and included in every task I complete as her assistant."
2024 University Leadership Well-being Award
Norman W. Jones, Ph.D
Vice Provost and Dean for Undergraduate Education
Professor of English
Closing Remarks and Charge to Participants
Three Keys for Happiness

Dreams/Purpose, Passion and Pride

• To enhance pleasure, look for ways to add fun and joy to your daily routines (e.g., socialize often)

• To enhance purpose, increase opportunities to use your strengths to achieve your dreams and meaningful goals
  
  o Knowing your sense of purpose is worth up to 7 years of extra life expectancy!

• To enhance pride, look for ways to align your job with your passions; reflect upon your accomplishments (none are too small!)
Take The 1-5-5 Buckeye Eye Opener 30 Day Morning Challenge: You are Worth 11 Minutes a Day!

1 Minute of Gratitude

5 Minutes of Reading in a Positive or Inspirational book or Listening to a Positive Podcast

5 Minutes of Movement/Physical Activity
Our 2024-2025 Wellness Theme

Thrive in '24 - '25
Surviving Versus Thriving

Two distinct states that have a major impact on our health and well-being

- Surviving: getting by; able to meet our basic needs but struggling to reach our dreams/goals and feel fulfilled
- Thriving: actively pursuing our dreams & goals, and experiencing fulfillment and life satisfaction
We want to know...

• What is your current level of thriving on a scale of 0 (not at all) to 10 (really thriving)?
• What could we do to help you thrive in 24-25?

https://go.osu.edu/sohw24poll

We want to help all of our Buckeyes to Thrive in 24-25!
